# the vault

**digital**  
EMPIRE

TO: You

FROM: Yale

# Dear Dreamer,

You made it and I'm so excited you're here!

The Vault isn't just a bundle of digital products. It's a beginning. A spark. A small step that could lead to something so much bigger than you imagined.

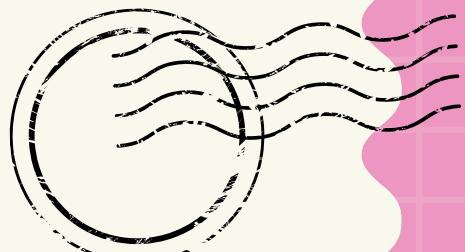

Whether you're just starting out or already on your way, I hope this reminds you that your ideas matter. That a life of freedom, creativity, and purpose is possible. And maybe, just maybe, this is where it all begins.

Use these tools to create boldly. Experiment, pivot, and grow.

From one creative soul to another:  
I believe in you. I really do.

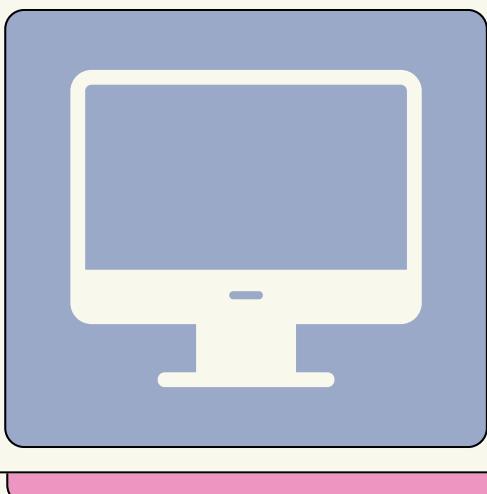

Now go build something you're proud of.

Cheering you on always,  
Yale

# notion

If you love staying organized and having everything in one easy-to-navigate space, we highly recommend checking out **The Vault in Notion**.

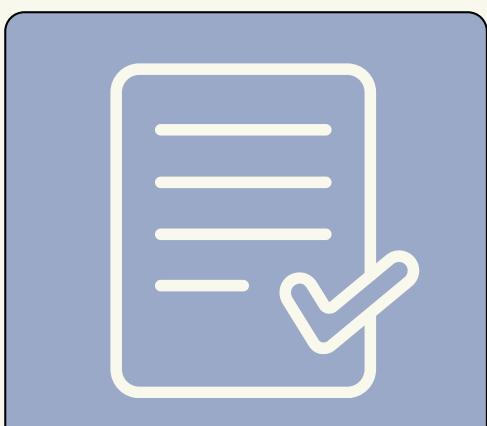

#### THIS VERSION ALLOWS YOU TO:

- Search, filter, and sort through all the templates
- Access links and previews quickly
- Watch the mini tutorial videos

[CLICK HERE TO ACCESS THE VAULT IN NOTION](#)

- ① Log into your Notion account—the free version works perfectly for this!
- ② Click the **Duplicate** button (top right)
- ③ The Vault will be added to your workspace!

# PDF

#### Prefer to keep things simple and stick with the PDF?

You can continue browsing through this guide, where we've grouped all the **templates by niche** for your convenience.

Just head to the **Table of Contents**, click on a category that fits what you're looking for, and it will take you straight to that section.

From there, simply click the **download button** under any template you'd like to use.

This PDF has **143 pages**. Please make sure to skim through the whole file to see all products.

# HOW TO USE THE VAULT

## choose your **preferred** format

- If you prefer navigating in **Notion** [CLICK HERE](#)
- Prefer to keep browsing through this PDF? Totally fine too!

## browse by niche

We've grouped all the digital products by niche to make things easier for you.

- In the **Table of Contents**, simply click on the niche you're interested in.
- You'll be taken directly to that section.
- Need a quick overview of all products? [CLICK HERE FOR THE COMPLETE PRODUCT CATALOG](#)

## download what you need

Each product comes with its own **download button**.

Here's how each type works:

### canva templates

Clicking the button will prompt you to create your own copy in Canva. You'll need a Canva account to access it.

### other files

Clicking the button will take you to Google Drive or Google Sheets, where you can download the files directly.

# RESELL LICENSE

**Effective upon purchase.** By buying, you ("Licensee") receive a non-exclusive, non-transferable, revocable license to use the digital products contained in The Vault ("Assets") under the terms below. The Vault creators retain all copyrights to the original Assets.

## 1 WHAT YOU CAN DO

- **Edit & Rebrand.** You may modify, combine, and sell the Assets under your own brand/name.
- **Resell to End Customers.** You may sell finished digital products or editable templates to end users on your website or storefronts (e.g., Etsy, Shopify, Gumroad), and create physical products derived from the Assets.
- **Commercial Use.** Use the Assets for your own business marketing, deliverables, or products you sell.

## 2 WHAT YOU CANNOT DO

- **No Pass-Through Rights.** You may not give your customers PLR/MRR/RR or any resell/redistribution rights to the Assets. Your buyers receive an end-user license only.
- **No Sharing Source Files.** Do not share or sell The Vault's original source files or master access links (e.g., Notion/Drive/Canva master links), include them in freebies, or expose them in a way others can copy or download the library.
- **No Uploading to PLR/Membership/Stock Libraries.** Do not upload the Assets to any site or service where others can download and reuse/resell them.
- **No Claim of Exclusive Ownership/IP.** Do not claim copyright or register trademarks on the original designs, or imply exclusivity.
- **No Unlawful/Harmful Use or AI Training.** Do not use the Assets for illegal/defamatory/hate content, to mint NFTs, or to train AI models/datasets.

## 3 OWNERSHIP

All copyrights to the original Assets remain with The Vault creators. Your modifications remain yours, subject to this license. Nothing here constitutes a transfer of intellectual property ownership.

## 4 REFUNDS, ACCESS & TERMINATION

Due to the digital nature of The Vault, all sales are final. Access credentials/links are for your use only and may not be shared. Any breach of these terms automatically terminates the license and access.

Any other questions? Contact us at [info@digitalstuffsociety.net](mailto:info@digitalstuffsociety.net)

# FAQ

# FREQUENTLY ASKED QUESTIONS ✨

## I bought The Vault but can't find my access link. What should I do?

Kindly check your email inbox (and spam/junk folder) for your confirmation email. If you still can't find it, reach out to us at [info@digitalstuffsociety](mailto:info@digitalstuffsociety) and we'll resend your link.

## How do I duplicate the Notion hub into my own workspace?

Click the "Duplicate" button at the top-right corner of the Notion page. Make sure you're logged into your Notion account first.

## How do I download and organize everything?

You can open any product link from the Notion hub or the PDF. From there, save a copy in Canva or download it directly to your computer. We recommend creating folders on your computer or Canva account to stay organized.

## Do I need Canva Pro to use these templates?

You can edit the templates with a free Canva account, but if you plan to resell them as editable templates, Canva Pro is required because only Pro users can generate a template link for customers.

## Can I resell these templates?

Yes! Every product inside The Vault comes with a resell license, so you can customize them and sell them on any digital product platforms like Etsy, Gumroad, your own website, etc.

## What exactly are the licensing terms?

When you buy The Vault, you get a commercial resell license just for you. You can customize, rebrand, and sell the products as your own — unlimited copies to unlimited customers. What you can't do is pass on the same resell rights to others (e.g., giving or selling the editable templates for other sellers to resell). The license is non-transferable.

**Do I have to edit the templates before selling, or can I sell them as is?**

With Etsy's new Creativity Standards, sellers are expected to list products that reflect their own creative input. That means while our templates are fully designed and ready to use, we highly recommend customizing them whether that's adjusting colors, fonts, layouts, or adding your own branding. This keeps your shop compliant with Etsy's rules, and it also makes your products feel unique, which helps you attract more buyers.

**What niches are the most profitable to start with?**

All the niches inside The Vault are proven to have buyers. The best place to start is the one you're most interested in or know the most about because when you enjoy the niche, creating and marketing products feels easier.

**Will you review my shop or listings?**

We don't offer shop/listing reviews, but The Vault is designed to give you everything you need (products, resources, and tools) to set up your shop for success from day one.

**Do you have any tips to make sure I become successful in this?**

Yes! We suggest putting your own spin on the templates so your shop stands out. Change up the colors, fonts, and images to match your style or brand. Also, try to list as many products as you can! Don't stop at what's inside The Vault. Use it as your foundation, but keep expanding with new products and ideas that complement your store. The more you create, the more opportunities you'll have to attract buyers.

**Do I get updates if something is changed or added?**

Yes, if we make improvements or fixes to existing products, you'll automatically get access to the updated files. Any brand new bundles or expansions in the future may be separate offers, but updates to what you already purchased are always included.

**Do you offer refunds?**

Since The Vault is a digital product with instant access, refunds aren't available. But if you ever have trouble accessing your purchase, our team is here to help! 😊 Please don't hesitate to reach out via email at [info@digitalstuffsociety.net](mailto:info@digitalstuffsociety.net)

MULTIPLICATION SIGNS	DIVISION SIGNS	$5 \times \frac{1}{5}$
$a \times b$ $a(b)$ $a \cdot b$	$a \cdot b$ $a \over b$ $a/b$	There is a division sign between every number and variable.
$3y = 3 \cdot y$	$-x = -1x$	A negative sign to the left of a number or variable is the same as multiplying by -1 times the variable.
There is a coefficient of one to the left of every variable.	Any nonzero number to the power of zero equals one.	There is a positive sign after the end of every whole number.
$x = 1x$	$7 = 7 \cdot 1$	Every number has an exponent of one.
$= x^1$	$8 = 8^1$	Every radical has an index of two. Square roots are the most common.
One over a variable is the same as the variable to the negative first power.	$- x  = -1 \cdot  x $	A negative sign to the left of a number in parentheses indicates the absolute value.
	$(-9)^2 = 81$	The distribution property distributes the number outside the parentheses to each term inside the parentheses.
	$-(x \cdot 5) = -5x$	Use the distributive property to multiply fractions by whole numbers. Distribute the fraction to each term inside the parentheses.

Meet the TEACHER

MS. WILSON

At the 3rd grade, I'm a teacher. After school, I like to go to the park with my family. I have a dog named Max. He's a golden retriever. I like to play with him and take him for walks. When I'm not at school, I like reading books and playing video games.

**FUN FACTS**

- I have three dogs named Max, Leo, and Charlie.
- I like to eat pizza and pasta.
- I have a pet hamster named Max.
- I like to play soccer.

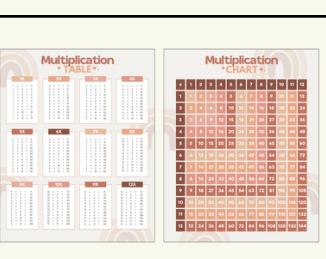

**FAVORITES**

- Cake: Tiramisu
- Color: Red
- Food: Pizza
- Hobby: Playing video games
- Music: The Sound of Silence

**Note:** Products on the first page are delivered as exported ready-to-print files, while the rest are provided as Canva templates for easy customization. Some products in this niche use Canva Pro Elements. The standard for printables is to deliver them as exported, ready-to-print files. This way, your clients won't need a Canva Pro account. If you prefer to share them as a template link instead, you can simply replace the Pro Elements with free ones before sending.
